

A person wearing a blue and white striped shirt is holding a clipboard and pen. They are standing next to a dark door that features a modern smart lock system with a black handle and a circular keypad. The background is slightly blurred, showing an office or commercial setting.

Bold

Bold Pro

Bold Pro is a smart lock solution designed for business use.

It combines secure, SKG*** certified hardware with powerful software, giving you full control over who can access your spaces and when.

Combined with the Bold webportal, it allows centralised management of users, access rights, and locations.

The Bold Pro at a glance

- Built for businesses – manage access across all your locations
- Full control over who enters, where, and when. All in one platform
- Perfect fit for all euro profile cylinders
- Always know who entered and when with a clear access log
- Schedule access for shifts, guests, or specific time frames)
- Create user- and devicegroups to organise access at scale
- Unlock in multiple ways: app, clicker, webkey, or smartwatch
- Works with integrations like Entra ID and PMS systems
- Easy to install in minutes, with up to 8-year battery life

Key features of Bold Pro

Unlock doors with a modern app

Bold App is simple and intuitive, available in 8+ languages to match everyone's needs.

Many ways to unlock your door

Give users the flexibility to unlock their way: Bold app, Bold Clicker or a smart watch.

Easily create different roles

Create groups to control access to spaces and set permissions for each group.

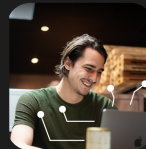

Always know who enters and when

Stay updated with a clear access log that always shows who entered where and when.

Manage locks for each space

Organise devices the way you work - by floor, department, or location.

Use existing or create your own integrations

Connect Bold with Entra ID, Booking Expert, Matter, etc. and build your own integrations.

Schedule access for staff shifts

Use scheduled access to decide when staff can enter - daily, weekly, or custom.

Enter with the phone in your pocket

Approach the door and the lock is ready - just turn the knob to step inside, no keys needed.

Plan access ahead

Set start and end times in advance - perfect for guests or vacation stays.

Bold Pro colours

The sturdy cylinder is made from brass and hardened stainless steel, with knobs in brushed satin chrome.
